

Captain Cook's Tuck Box runs on a PC (personal computer) or PC laptop with the Microsoft Windows operating system, versions XP to 8.1. It does not run on an AppleMac unless it has full Windows emulation.

Your computer will require:

- 500 mb of free disk space
- 125 mb of RAM
- Optional sound system for speech, music and sound effects
- Printer, preferably colour, to print recipes, menus, certificates of attainment and other things.
