|  | Page |
|--|------|
| INTRODUCTION   | 1    |
| CHAPTER 1: WHAT WE USED TO EAT   | 4    |
| CHAPTER 2: FAT UNDER FIRE  | 7    |
| CHAPTER 3: THE TRUTH ABOUT SATURATED FAT   | 23   |
| CHAPTER 4: THE CAUSES OF HEART DISEASE   | 27   |
| CHAPTER 5: A SICK NATION   | 34   |
| CHAPTER 6: FATS – THE GOOD, THE BAD AND THE UGLY                                       | 48   |
| CHAPTER 7: BATTLE OF THE OMEGAS  | 57   |
| CHAPTER 8: SUGAR – THE SWEET ASSASSIN  | 79   |
| CHAPTER 9: CARBOHYDRATES – A WOMAN’S WORST FRIEND                                      | 93   |
| CHAPTER 10: CHOLESTEROL – NOT THE BIG BAD WOLF   | 99   |
| CHAPTER 11: VITAMINS – CAN’T LIVE WITHOUT THEM   | 110  |
| CHAPTER 12: MINERALS IN MELTDOWN   | 118  |
| CHAPTER 13: DIETARY DEFICIENCIES   | 126  |
| CHAPTER 14: ALLERGIES, INTOLERANCES, COELIAC DISEASE AND IBS                           | 140  |
| CHAPTER 15: ARE ORGANIC FOODS BETTER?  | 150  |
| CHAPTER 16: WATER – A SPRING OF LIFE OR A LOW-LEVEL POISON?                            | 158  |
| CHAPTER 17: ALCOHOL – THE SACRED COW   | 171  |
| CHAPTER 18: INFERTILITY – ITS CAUSES AND CURE  | 179  |
| CHAPTER 19: HOW TO LOSE WEIGHT AND KEEP IT OFF   | 193  |
| CHAPTER 20: EXERCISE – IT’S WHAT WE WERE MADE FOR                                      | 201  |
| CHAPTER 21: REST – NATURE’S MEDICINE   | 225  |
| CHAPTER 22: HOME COOKERY – MANY COOKS DON’T SPOIL THE BROTH                            | 235  |
| CHAPTER 23: A FAMILY HEALTH MANUAL   | 242  |
| CHAPTER 24: THE COST OF GOOD HEALTH  | 258  |
| <br>   |      |
| Annexe 1: 3-day menu based on protein:fat:carbohydrate calorie percentages of 25:45:30 | 262  |
| Annexe 2: Recipes for the 3-day menu   | 267  |
| Annexe 3: Nutrients, functions and sources   | 272  |
| Annexe 4: Glycaemic loads produced by typical servings of common carbohydrate foods    | 282  |
| Annexe 5: Omega-3 content of marine foods  | 289  |
| Annexe 6: Derivation of recommended fish oil consumption                               | 295  |
| Annexe 7: Microwaved food – noxious or nutritious?                                     | 298  |

## Figures

|   | Page |
|---|------|
| Figure 1: Deaths from coronary heart disease in the U.S.A., 1900-1968                           | 11   |
| Figure 2: Correlation of heart disease and fat consumption, Ancel Keys, six countries           | 12   |
| Figure 3: Correlation of heart disease and fat consumption, Ancel Keys, all 22 countries        | 14   |
| Figure 4: Margarine consumption and deaths from coronary heart disease in the U.S.A., 1900-2000 | 15   |
| Figure 5: Annual per capita consumption of butter in the U.S.A.                                 | 15   |
| Figure 6: Relationship between stress and disease   | 29   |
| Figure 7: Trends in adult obesity, U.S.A. and England, 1962-2012                                | 34   |
| Figure 8: Trends in childhood obesity, U.S.A. and England, 1962-2012                            | 35   |
| Figure 9: Coronary heart disease death rates in England & Wales and the U.S.A.,                 |      |

|   |    |
|---|----|
| 1900-2011   | 36 |
| Figure 10: Heart disease prevalence, and deaths from ischaemic heart disease, among adults aged 18 and over: U.S.A. 1997-2012                               | 37 |
| Figure 11: Patient admissions for coronary heart disease in England & Wales and number of prescriptions for coronary vascular disease in England: 1960-2010 | 38 |
| Figure 12: Percentage of population in England and the U.S.A. with diagnosed diabetes, 1958-2010  | 39 |
| Figure 13: Prevalence of liver cancer in Great Britain, 1975-2010   | 40 |
| Figure 14: Prevalence of bowel cancer in Great Britain, 1975-2010   | 41 |
| Figure 15: Fats as a percentage of total fat in some common foodstuffs  | 45 |
| Figure 16: Association between percentage of omega-6 in highly unsaturated fatty acids and coronary heart disease death rates                               | 55 |
| Figure 17: Ratios of omega-6 to omega-3 for some common sources of fat  | 66 |
| Figure 18: Ratios of omega-6 to omega-3 for potatoes and some common cereals  | 67 |
| Figure 19: Relationships between percentage of national population with high cholesterol levels and death rates from coronary heart disease                 | 94 |
| Figure 20: Rates of renal cancer by latitude, 2002  | 97 |

## Tables

|  | Page |
|--|------|
| Table 1: Minutes of exercise required to burn 500 kilocalories   | 8    |
| Table 2: Recommended mixed oily and non-oily fish consumption necessary for cardiac and other health on a Western diet   | 59   |
| Table 3: Percentage increase in base level of EPA, DHA and DPA in the blood after 12 weeks of omega-3 supplementation among four experimental groups of men                    | 61   |
| Table 4: Methods of obtaining a week's minimum recommended intake of 3,150mg EPA + DHA from fish or the equivalent benefit from oil, and some representative costs in the U.K. | 62   |
| Table 5: Water contaminants and treatment methods  | 143  |
| Table 6: Some low energy-dense foods   | 166  |
| Table 7: Exercises for children under 5  | 178  |
| Table 8: Exercises for children from 5 to 18   | 179  |
| Table 9: Exercises for adults  | 180  |
| Table 10: Upper body exercises   | 182  |
| Table 11: Lower body exercises   | 182  |
| Table 12: Abdominal muscle (ABS) exercises   | 183  |
| Table 13: Strength-training programme  | 184  |
| Table 14: Estimated maximum heart rates by age   | 186  |
| Table 15: Recommended daily calorie intakes for children of different ages   | 206  |
| Table 16: Body Mass Index ranges for children  | 207  |
| Table 17: Guide to waist-to-hip ratios for adults  | 208  |
| Table 18: Guide to maximum healthy waist circumferences for children   | 208  |
| Table A.1: 3-day, 1,823 calorie per day menu for one person based on protein:fat:carbohydrate calorie percentages of 25:45:30.   | 220  |
| Table A.2: Recipes for the 3-day menu in Annexe 1  | 225  |
| Table A.3: The nature, functions, sources and effects of nutrients   | 230  |
| Table A.4: Glycaemic loads produced by typical servings of common carbohydrate foods   | 240  |

|  |     |
|--|-----|
| Table A.5.1: Omega-3 content of marine foods, best sources, in mg per 140gm serving      | 248 |
| Table A.5.2: Omega-3 content of marine foods, excellent sources, in mg per 140gm serving | 249 |
| Table A.5.3: Omega-3 content of marine foods, good sources, in mg per 140gm serving      | 250 |
| Table A.6: Derivation of recommended fish oil consumptions                               | 251 |
